ⓘ PRODUCT INFORMATION

- **LUXOMAT® Indoor 180-S-FM**, Slave, automatic wall switch with 180° detection area for Master/Slave combination
- This slave was specially developed for parallel operation with **LUXOMAT® Indoor 180-M-2C**
- Combinable with coverings in five different colours
- For the combination with switches of leading manufacturers the enclosed additional intermediate frame can be used
- Version IP20 and IP54 (only European version – for moisture-proofs, garages, cellar steps)
- Significant reduction in day-to-day energy costs with this Master/Slave combination, e.g. when used in corridors or rooms used by the public
- Motion can be detected in all room segments using slave
- When a movement is detected, the slave transmits an impulse to the master
- The movement is detected independently of light level
- There are no more adjustment elements available
- **Application examples:**
  monitoring of public lavatories, corridors, archive rooms, conference rooms etc.
- **Coverings please order separately!**
